.....APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. It is understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in each discharge pipe line near the points of diversion under this permit and under Permit 17148

and accurate measurements must be kept of water placed to beneficial use. The combined total diversion and annual withdrawal and use of water under this permit and Permit 17148 shall not exceed 0.1 c.f.s. and 6,595,000 gallons annually, respectively.

This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second but not to exceed 6,595,000 gallons annually, respectively.

Actual construction work shall begin on or before December 5, 1972

Proof of commencement of work shall be filed before January 5, 1973

Work must be prosecuted with reasonable diligence and be completed on or before December 5, 1973

Proof of completion of work shall be filed before January 5, 1974

Application of water to beneficial use shall be made on or before December 5, 1975

Proof of the application of water to beneficial use shall be filed on or before January 5, 1976

Map in support of proof of beneficial use shall be filed on or before.....
